TECHNICAL SKILLS

- **Front End:** HTML, CSS, Tailwind CSS, Bootstrap, Javascript, Typescript, Blazor, React, Next.js
- **Back End:** C#, .NET 6-8, ASP.NET Core Web API & MVC, EF Core, xUnit, CQRS & MediatR, DDD & Clean Architecture, Microservices, RabbitMQ, SQL Server, PostgreSQL
- **Developer Tools:** Git, GitLab, Docker, Jira, Azure DevOps, Postman API, Visual Studio 2022, VS Code

EXPERIENCE

Backend .NET Developer at askBlue/Aceve | Sep 2024 - Present

- I work as a consultant assigned to **Aceve**, a company in the craft and construction SaaS industry, where I am responsible for the development and maintenance of our applications and their **microservices** using these technologies: **C#, .NET 6/8, ASP.NET Core Web API, DDD and Clean Architecture, CQRS with MediatR, EF Core, xUnit, Docker, PostgreSQL, SQL Server, DBaer, Jira, GitLab and English.**

Full-Stack .NET Developer at Softinsa/Millennium BCP | Jan 2024 - Aug 2024

- I worked as a consultant assigned to **Millennium BCP**, where I was responsible for the development and maintenance of internal applications using technologies such as **C#, SQL Server, T-SQL, ASP.NET WebForms, HTML CSS & Javascript.**

Full-Stack .NET Developer at Quatenus - WWIL | Mar 2023 - Dec 2023

- Worked on the frontend of the company's main product, its web application in **ASP.NET WebForms**, using **HTML CSS & Javascript.**
- Created and modified web services on the main company's **ASP.NET Web API** to support new features for web and mobile applications, using **EF Core** to manipulate data from **SQL Server.**
- Developed a fullstack **ASP.NET Core MVC** web portal for a client, creating a full-text index on a string column with millions of values, improving performance time from >30s to ~2s.

C#/VB.NET Developer, Product Development in R&D at BA Glass | Aug 2022 - Feb 2023

- As an intern, I compiled and created an installer for the department's **C#** and **VB.NET SolidWorks** Add-In, used by the Product Design team towards all products manufactured in all the 13 factories across Europe.
- Created new User Interfaces using **WinForms** and leveraged SolidWorks's docs to modify existing native ones.
- Implemented **C#/VB.NET** macros to automate design processes, speeding up product and manufacturing design.

EDUCATION

BSc Computer Science and Telecommunications Engineering - Instituto Superior Técnico

Most relevant courses: Distributed Systems, Software Engineering, Databases, Object Oriented Programming, Algorithms and Data Structures, Programming Fundamentals, Security of Networks and Systems, User Interfaces, Networks Architecture.

CERTIFICATES

- **Complete ASP.NET Core and Entity Framework Development (15h)** by Trevor Williams - Udemy
- **Complete Blazor (WASM & Server) and ASP.NET API Development (13h)** by Trevor Williams - Udemy
- **Crash Course: Build a Full-Stack Web App in a Weekend! (13h)** by Jonas Schmedtmann - Udemy
